

Journal of Mathematical Analysis and Applications

EDITORS

STEVEN G. KRANTZ
*Washington University
 in St. Louis*
 Real and complex analysis
 Partial differential equations
 Fax: 314 935 6839
 E-mail: sk@math.wustl.edu

GOONG CHEN
*Texas A&M University**
 Applied and computational PDE's
 Vibration control, nonlinear and
 chaotic systems
 Engineering mechanics, molecular
 quantum mechanics and
 quantum computing
 Fax: 979 862 4190
 E-mail: gchen@math.tamu.edu

RICHARD M. ARON
*Kent State University**
 Functional analysis
 Infinite-dimensional
 function theory
 Fax: 330 672 2209
 E-mail: aron@math.kent.edu

Founding Editor: RICHARD BELLMAN

Editor 1985–1991: R.P. BOAS

Honorary Editors: GEORGE LEITMANN WILLIAM F. AMES JAMES S.W. WONG

DIVISION EDITORS

RAUL CURTO
*University of Iowa**
 Single and multivariable operator theory
 C*-algebras
 Classical theory of moments

HÉLÈNE FRANKOWSKA
CNRS and Université Pierre et Marie Curie (Paris 6)
 Set-valued, nonsmooth, convex and nonlinear analysis
 Viability theory
 Differential inclusions, control problems, and
 differential games with state constraints
 Regulation of systems evolving under
 nonstochastic uncertainty

PAUL SACKS
*Iowa State University**
 Inverse problems
 Nonlinear parabolic partial differential equations

ULRICH STADTMUELLER
*Abteilung Mathematik III
 University of Ulm*
 Probability
 Statistics
 Classical analysis

RODOLFO H. TORRES
*University of Kansas**
 Harmonic analysis and its applications

T. WITELSKI
*Duke University**
 Partial differential equations
 Fluid mechanics
